

## About the Seminar

Fire safety regulations and practices are constantly evolving with the widening implementation of UBBL 2012 among the states, the introduction of Malaysia Standard for fire pumps and new requirements for 'Sistem Pengawasan Kebakaran Automatik (SPKA)'. It is the responsibility of the professionals as well as the contractors to ensure that the fire safety design and installation complies with the latest regulations, standards and practices. This seminar will look into the latest practices covering the following aspects:

- (a) Requirements for compliance with MS2616–Fire Pumps;
- (b) Latest comparison of conventional and addressable fire alarm systems;
- (c) Interface requirements of the new SPKA system;
- (d) Surge protection for fire safety systems;
- (e) Proper testing and commissioning of fire safety systems.

The topics are targeted at all those involved with fire safety design and installation including, approving agencies, M&E consultants, developers and contractors. This seminar will elaborate on the latest design and installation practices.

### Registration Fee (per person) (inclusive of 6% GST)

ACEM member firms, MFPA members and Bomba officers	RM 477.00
Others	RM 583.00

Registration fee must be paid in Ringgit Malaysia by crossed cheque issued to 'The Association of Consulting Engineers Malaysia'.

Fee will not be refunded for any cancellation. However, substitution of participants can be arranged by informing the organiser at least one week before the seminar commences.

Please return the completed registration form, together with payment, by **8 November 2017** to the following address:

The Association of Consulting Engineers Malaysia  
Suite 20-9, Level 20, Menara 1MK,  
No. 1, Jalan Kiara, Mont' Kiara,  
50480 Kuala Lumpur
