MESSAGE FROM THE PRESIDENT

Dear Members, friends and colleagues,

We've been dealing with a variety of MCOs in our fight
against the Covid-19 epidemic for over a year and a
half. Many of us have reduced employees, overheads,
and expenses due to severe cash flow constraints.

Nonetheless, Covid-19's difficulties persist. We must

be vigilant and continue to establish proper risk management plans to
increase our readiness and resilience. In the meanwhile, we should all
continue to follow the SOPs and adjust to the new normal as best we
can. ACEM is also adapting nicely. Our virtual training and education
programmes, as well as our Council and Standing Committee meetings,
are conducted in a hybrid format. I'd like to express my gratitude to the
Council members and other members who continued to volunteer their
time to actively represent ACEM in various committees formed by other
organisations, such as BEM, ST, CIDB, MPC, DBKL, JSM, and BOMBA,
throughout the MCO. To all members, we hope you will join us for all of the
webinars we have scheduled for this year. Keep up with our company and
industry advancements by visiting our ACEM website, as well as BEM's and
FIDIC's.

Thank you

Datuk Ir Mohd Adnan bin Mohd Nor

INSURANCE FAQ

1. Why do I have to fill out a proposal form?

To provide the insurer with information to adequately understand your business in order to assess coverage. All declarations in the proposal form, form part of the policy contract..

2. What is the retroactive date?

The retroactive date is the date after which acts, errors or omissions of the insured are covered. Any act, error or omission arising from professional services provided prior to the retroactive date will not be covered under the policy. Thus, for example, the PII with a term written from January 15 2016 to January 15 2017, and a retroactive date set at inception (January 15 2013), would bar coverage for claims resulting from wrongful acts that took place prior to January 15, 2013, even if the claim was made against the insured during the policy period. .
