CPD & CCD Point To Be Applied For : BQSM (4), BEM (4) and CIDB (10),
SISV (TBC), PICQS (TBC), PUJA (TBC), RISM (TBC) & IQSI (TBC)

INTRODUCTION

The ASEAN Quantity Surveyors Association (AQSA) in collaboration with Construction Industry Development Board (CIDB) and UTMSPACE is proud to organise and welcome you to participate in the Inaugural Virtual International Quantity Surveying (QS) Conference 2022 with the theme "Collaboration and Mobility of QS profession in the Asean countries - The Challenges and Way Forward".

The Conference is supported by Malaysia External Trade and Development Corporation (MATRADE), Board of Quantity Surveyors Malaysia (BQSM), Asean Federation of Engineering Organisations (AFEO), Master Builders Association Malaysia (MBAM) and Association of Consulting Engineers (ACEM).

The Conference is envisioned to be the biggest gathering of the best minds in the QS and allied professions working in the QS firms, project management companies and contracting organisations.

As the QS profession in many ASEAN countries is not known as a distinct discipline, the conference would be a unique platform to raise the profile of the QS profession in the region. The Organizing Committee, who are all volunteers of AQSA member countries, have exerted great effort and commitment in the preparation of the program that will feature prominent speakers from all the ASEAN countries which include the Honourable Secretary of the ASEAN Secretariat, the Chief Executive of CIDB Malaysia and Construction Ministry of ASEAN countries, the Presidents of Associations of the Quantity Surveyors, Project Managers, Contractors and Developers and many other prominent international speakers.
