“Professional engineering services” means engineering services and advice in connection with any feasibility study, planning, survey, design, construction, operation, maintenance and management of engineering works or projects and includes any other engineering services approved by the Board;

“Engineering works” means all works which include any publicly or privately owned public utilities, buildings, machines, equipment, processes, works or projects that require the application of engineering principles and data;

4. Those contravening the above Section 7 of the REA 1967, upon conviction shall be liable to penalties as mentioned in Section 24. The full version of the REA 1967 is available in BEM website at www.bem.org.my.
