

PREFERENTIAL PRICING BUNDLING PROGRAM FOR **PAM & ACEM MEMBERS**

PAM & ACEM in collaboration with VirtualField are launching the BIM for Design 3D Workflow Implementation Program to help members to develop 3D models using industry best practices, ensuring seamless coordination and proven success in real-world projects by offering preferential pricing bundling program that consists of 3D Authoring tool (Autodesk Revit), BIM for Design 3D Workflow Implementation Programme using IDWE (Integrated Development 3D Workflow Environment) and HP workstations.

PAM & ACEM members will enjoy great savings up to:

25% for 3D Authoring Tool (Autodesk Revit)

50% for BIM for Design 3D Workflow Implementation Program

- > Architecture, Civil & Structural, Mechanical & Electrical 3D modeling
- > Comprehensive syllabus to set your BIM project up for coordination purposes
- > Real-time implementation of real-life past projects
- > Free* IDWE beta access

Preferential price on selected HP products

Members who enrolled this programme will benefit from using genuine software and mitigate any cybersecurity risks.
